

# THE ONE

## The Cordless Lamp Alternative

Jannatec Technologies is pleased to offer its latest lighting product. The ONE is a new product destined to change the cap lamp industry forever. It's an affordable, cordless cap lamp alternative. Its unparalleled ambient light pattern and lithium polymer battery make it the cap lamp you just clip on and go.

The ONE, Jannatec's ergonomically designed premiere product line, features battery cell balancing technology for longer life. In order to prevent damage to the unit, The ONE also features thermal protection during charging to avoid over heating. The ONE-X offers the ability to integrate multi-vendor RFID tags and collision avoidance.

**Improved ambient lighting:**  
Illuminates your workspace.

**Easy-clip adjustable metal attachment:**  
The One attaches easily to any hard hat.

**Two-way push button light:**  
At the push of a single button, The One goes from exit light to super bright.

THE ONE
