

THE TWO-GO

The Cordless Lamp Alternative

Jannatec Technologies is pleased to offer its latest lighting product. The TWO-GO is a new product that is sure to light the way for many years to come. It's an affordable, cordless cap lamp alternative. Its unparalleled ambient light pattern and unparalleled charging options make it ideal for use in all types of harsh environments.

The TWO-GO, part of Jannatec's ergonomically designed premiere lighting product line, features lithium battery technology providing longer life. Components are housed inside anti-static durable housing rated to IP68 standards, and has electrical short circuit protection. The TWO-GO offers the ability to integrate Jannatec's JAWS tag for use with our proximity detection solution.
